

PRESS RELEASE

Blanch Avenue Bridge at the Closter / Norwood Border will be Closed Indefinitely

Today while assisting Rockland Electric, the Closter Police Department found a large hole on the north side of the bridge in the roadway. It was determined that underneath the roadway a large washout had occurred. Engineers were consulted by the borough and advised the roadway must be closed until such time that both the cause is identified and an appropriate fix is implemented. Both the Borough of Closter and Norwood will be jointly working on this project.
